

Training Module 4 (TM4): Waste Management in Rural Communities

Daniela Gavrilesco

Responsible Partner :
**“Gheorghe Asachi” Technical University of Iasi,
Romania, TUIasi**

Main Goal of the Training Module 4

- To enhance knowledge transfer and to develop pro-environmental attitudes and behaviors towards the solid waste management activities for citizens living in rural communities.

Objectives:

- To develop open educational resources on the topic;
- To provide training materials and easy to follow presentations and instructions;
- To verify the transfer of knowledge by assessment tools.

Activities and timeline

- Project start: November 2020
- Digital material content drafts: 2021-2022
- Updated materials and first trial on the target audience: May 2022 @TPM2, ME1
- Updated materials and second trial on the target audience: October 2022 @ME2 an November 2022@C2
- Digital material content (both in Romanian and English): March 2023@TPM3
- Final version: By the end of the project

TM 4 Outputs- 1

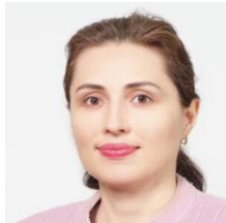

Digital material content on 3 main topics:

1. Waste management in rural communities
generation, composition, waste management
components: stakeholders, financial sustainability,
technologies, perspectives
2. Biomass waste. Household waste
Special focus on biomass waste and HH waste in rural
communities and on composting
